270	150					Metric size	Available
255	150	10	6			Imperial Size	Rare
250	150					Metric size	Available

Notes

Not all slate sizes are available from each quarry. Some slates are only available in one standard size.

Imperial sizes are mostly available for repair and heritage work from British and Canadian quarries.

Metric slates are mostly available for new work from Spanish, Brazilian and Chinese quarries.

The Metric sizes for Imperial size slates have been rounded to the nearest 5mm

Slates 9 inches wide were often used for Damp Proof Courses
